

Any Tool

Designed down to the last detail for effortless use in meetings, the Any Tool series is lightweight and nestable for easy storage.

GOOD DESIGN AWARD 2023
BEST 100

FEATURES

Pen tray

The whiteboard has a tray on both sides for storing marker pens and erasers.

Adjustable monitor height

The monitor height can be adjusted for standing or sitting meetings.

Cable hooks

The monitor stand has two hooks in the back for organizing cables.

Screen that loosely divides the space

The fabric screen has just the right level of translucence. It gives users their own space for focused discussions without shutting them off from the surroundings.

MATERIALS

Castors

Note: Polyurethane castors could be used on hard floor like wood flooring without damaging the finish.

Only the specific castors designed for this product can be used. Please do not use substitutes.

Caution: Do not use on cushion flooring, as this may damage the flooring.

Typical specifications

Frame

ø28.6 mm powder-coated round steel pipe.

Castors

ø40 mm twin-wheel castors (nylon body, urethane-coated wheels), no stoppers.

Whiteboard

Pen tray

Powder-coated steel.

Board

Double-sided whiteboard.
