

Monitor Stand

Large monitor stand
Small monitor stand

Large monitor stand

Available in both fixed and mobile versions, this unit is designed to accommodate 65-inch and 85-inch monitors.

Small monitor stand

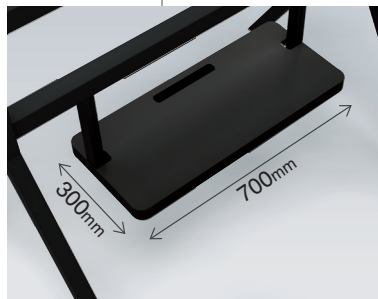

Featuring a simple, movable design that easily fits into diverse settings, these stands are compatible with monitors up to 43-inch.

Large monitor stands

FEATURES

Handles on the back of the mobile version make maneuvering easy.

The shelf is designed for secure device storage, accommodating remote controllers and external speakers. It can also hold ancillary equipment such as laptops and cameras, with a supporting maximum load of 10kg.

Designed with dedicated space to house additional power outlets, the stand allows wiring to run discreetly down the base, keeping cables completely hidden from view.
