Weight (per 1) Low:3kg. Standard:3.2kg. Middle high:3.7kg. High:4.9kg.	

- Due to the characteristics of the material, linoleum has a linseed oil scent and may have color variations between individual pieces. Additionally, depending on the direction of the lighting, the surface may appear wavy.
- Placing hard items such as metal or ceramics directly on the linoleum tabletop, or using pointed objects like pens, may scratch or leave marks on the surface. Please take care when using the product.
