GOOD DESIGN  
AWARD

## FEATURES

**Slim and straight lines, a modern design achieved through materials that embody the essence of black and white.**

A refined beauty that combines a classic presence with organic fluidity. A sophisticated design where sharpness and comfort merge. Its pared-down, simple form resonates with the senses, expanding the possibilities of modern standard spaces.

### **True comfort that creates new value**

The ultimate in functional beauty, Saibi-TX sparks free, creative thinking. The mechanics and acoustics have been designed for deep thought. Saibi-TX delivers true comfort, allowing you to enter your natural state of flow, where you can unlock your aesthetic imagination to create new value.

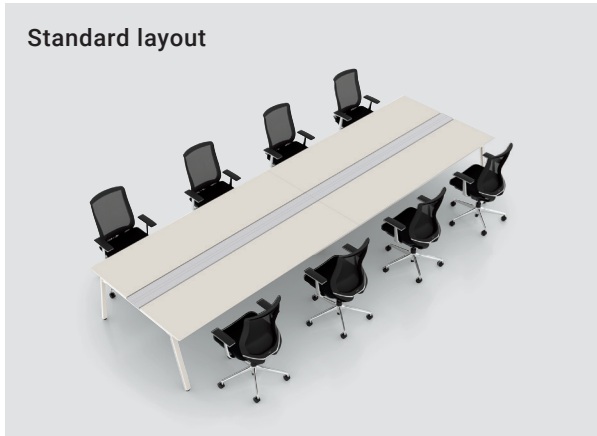

### **Modern textures**

The monotone surfaces create tension and harmony. Combining impact with slenderness, the design speaks of a gentle assertiveness and spirit of innovation. The design expands the possibilities of the space.

# VARIATIONS

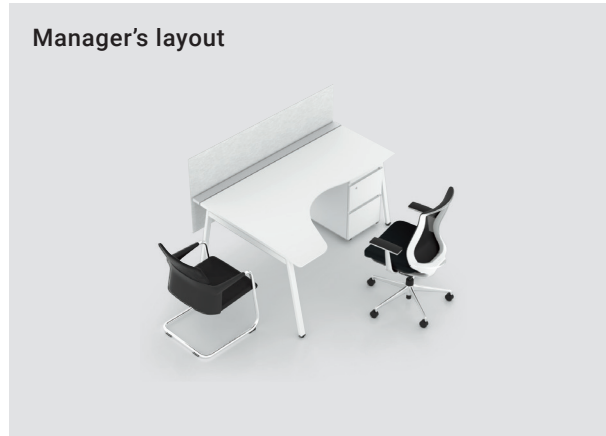

## Work tables

### Standard layout

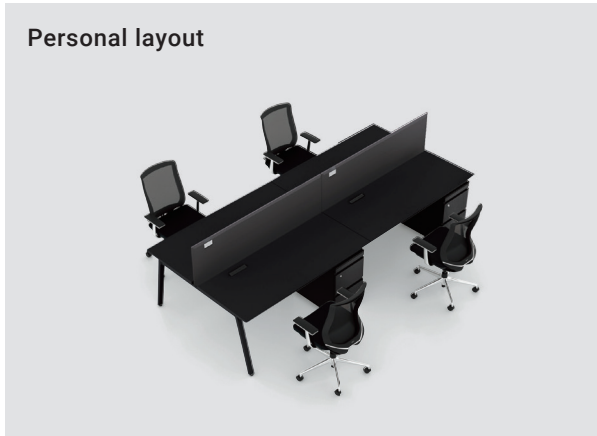

The long, unpartitioned table provides comfort and facilitates communication. The layout can accommodate increases or reductions in seating or the use of free addressing.

### Manager's layout

A minimalist layout to maximize the functionality of the manager's desk. The left return's legs are angled to provide legroom for someone having a brief meeting with the manager.

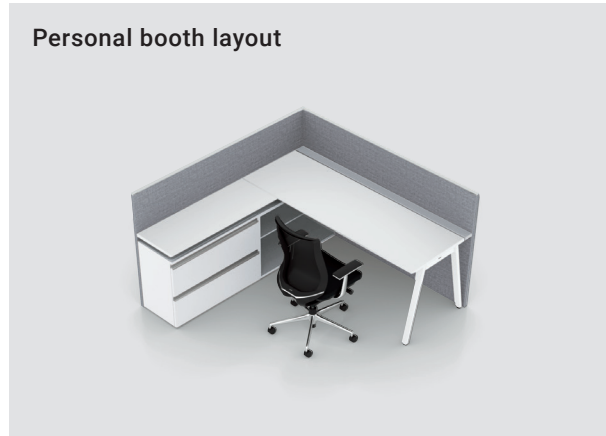

### Personal layout

Consisting of a large table equipped with power outlets, this layout maximizes tablespace for each user with space to spare for monitors.

Note: If you plan to use the built-in power outlet outside Japan, please consult with your sales representative.

### Personal booth layout

This L-shaped standalone booth creates an environment for focused solo work. It has plenty of storage space for work involving an array of documentation.

## Large conference table, executive furniture

### A conference table with a simple, elegant design

With its refined monotone surfaces and carefully thought out functionality, this table supports high-quality communication.

## MATERIALS

### Specifications for table units for workbenches, standalone table, standard table, and underside storage

#### Tabletop

Core: Powder-coated steel, honeycomb.  
Surface: Melamine board, tabletop thickness 25mm.  
Edge: Extruded ABS.

#### Beam

40 mm powder-coated square steel pipe.

#### Base

Powder-coated steel pipe (50×30 mm).  
Adjusters: Elastomer.

#### Cable duct

Powder-coated steel.

#### Cable cover

Extruded anodized aluminum, ABS.

### Specifications for 120-degree work bench, 120-degree boomerang table

#### Tabletop

Core: Particle board.  
Surface: Melamine board, tabletop thickness 25mm.  
Corner cover: Powder-coated steel.  
Edge: Extruded ABS.

#### Beam

40 mm powder-coated square steel pipe.

#### Base

Powder-coated steel pipe (50×30 mm).  
Adjusters: Elastomer.

#### Cable duct

Powder-coated steel.

#### Cable cover

Extruded anodized aluminum, ABS.

- Comes with soft-close mechanism
- Floor level adjustment range: 18 mm
- Among the product codes, SAW, E6A, and M1A indicate colors for the base.
- For the workbench with power outlet, power cables and USBs are connected directly at the power outlet while LAN cables are reconnected at a wire-to-wire at the rear of the power outlet connector.

### Specifications common to all storage unit

#### Tabletop

Core: Particle board.  
Surface: Melamine board, tabletop thickness 25mm.  
Edge: Extruded ABS, extruded PVC.

#### Body, door, end panel, shelving

Powder-coated steel.

#### Drawer

Extruded anodized aluminum.

- Floor level adjustment range: 15 mm

### Specifications for L-shaped table

#### Tabletop

Core: Particle board.  
Surface: Melamine board, tabletop thickness 25mm.  
Corner cover: Powder-coated aluminum casting.  
Edge: Extruded ABS, extruded PVC.

#### Beam

40 mm powder-coated square steel pipe.

#### Base

Powder-coated steel pipe (50×30 mm).  
Adjusters: Elastomer.

#### Cable duct

Powder-coated steel.

#### Cable cover

Extruded anodized aluminum, ABS.

### Specifications for side-return table, table extension

#### Tabletop

Core: Particle board.  
Surface: Melamine board, tabletop thickness 25mm.  
Edge: Extruded ABS.

#### Beam

40 mm powder-coated square steel pipe.

#### Base

Powder-coated steel pipe (50×30 mm).  
Adjusters: Elastomer.

#### Cable duct

Powder-coated steel.

#### Cable cover

Extruded anodized aluminum, ABS.
