

Hemming

A person's natural grace is most apparent when they are seated with ease. Our primary challenge was to design a product that allows anyone to achieve this level of comfort and effortless posture.

CONCEPT

FEATURES

Comfortable shape

Human-centered design that embraces you.

Easy-to-handle shape

(LEFT)
A handle designed for easy one-handed pulling.
(RIGHT)
Smooth, snag-free glides for seamless movement.

Easy-rise shape

(LEFT)
Armrests are shaped and positioned to provide support, making it easier to rise from the chair.
(RIGHT)
A seat shaped for effortless standing and sitting by rotating the body.

FEATURES

Sustainable

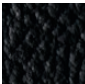

We use over 15% recycled polypropylene to help reduce petroleum consumption. At the end of its life, the product can be 100% disassembled into single-material components using standard tools, ensuring easy recycling.

Stackable

The L shell stackable chair stacks four high on the floor. The handle-shaped back frame offers an easy grip for carrying.
