

# Mycket

Simple design, maximum versatility: 811 variations to suit any room.

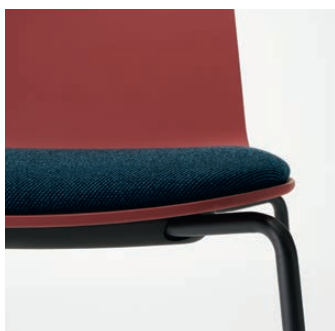

## FEATURES

The fully curved seat design allows you to comfortably sit on the chair from any angle.

The backrest is specifically designed to accommodate hand luggage and belongings. Its gentle curve helps prevent small carry-ons from slipping off the edge.

The seat includes a 30 mm thick urethane cushion for superior comfort and reliable support.

Gliders ensure quiet, easy movement.

VZE6 Black VZEN Bright gray

### Antibacterial polypropylene seat

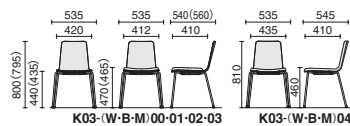

Tested under the international standard ISO 22196, our antibacterial material demonstrated a 99% reduction in bacteria within 24 hours when compared to a non-treated material.

◆The antibacterial agents are applied to the polypropylene backrest and seat only; please note that the seat pad does not include these agents. While the treated surfaces are effective at reducing certain bacteria on contact, it is not a substitute for infection prevention, nor is the material designed to treat or prevent illness.

\*Synthetic leather resistant to alcohol and sodium hypochlorite
