GOOD DESIGN
AWARD

FEATURES

“Middle-high seating + sway”

Middle-high seating to actively move between standing and perching. Generate and let the ideas flow by swaying in the middle-high seating posture.

Comfortable seating

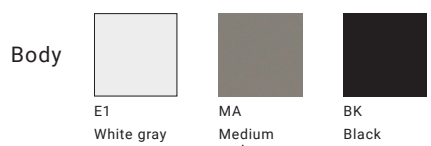

Join features a contoured seat cushion that conforms to the body. The hip supporting back handle together with the molded urethane cushion adequately distributes body weight for lasting comfort.

Light weight and sturdy

Swiftly place with easy-to-hold back handle. Light weight requiring only one hand to carry, effortless to move from one scene to another.
