

# offset frame

DAYS OFFICE

Features a design in which the frame slightly "protruding" from the shell.

## FEATURES

Seat height can be adjusted between 390mm and 510mm.

The frame protrudes slightly from the shell, making it easy to pull the chair and carry with ease.

You can also hang blankets, etc.

Note: The polypropylene shell model shown is discontinued.

### Castors

Polyurethane castor

Note: Polyurethane castors suitable also for hard floors, such as wood flooring.  
Rubber castors are not available on this product.  
\* Do not use on cushion flooring as it may damage the floor.

### Stackable

4-legs: 2-high on floor  
\* Castor legs and glide legs are not stackable together.

designed by .

A design office founded in 2002 led by Oki Sato (born 1977 in Canada). Based in Tokyo, Milan, and Singapore, he works on a wide range of designs, including architecture, interiors, products, and graphics, with the concept of "giving people a feeling of a small '!'.

In 2006 and 2007, he was selected as one of Newsweek's "100 Most Respected Japanese" and "100 small and medium-sized enterprises that the world is paying attention to." 2012 Wallpaper magazine (UK), Elle Deco International Design Award Designer of the Year. His representative works are in the collections of major museums around the world, including the Museum of Modern Art in New York (USA), the Center Pompidou (France), and the Victoria and Albert Museum (UK).
