

JUKE

A simple shelf series that can be flexibly "partitioned" or "enclosed" by combining units.

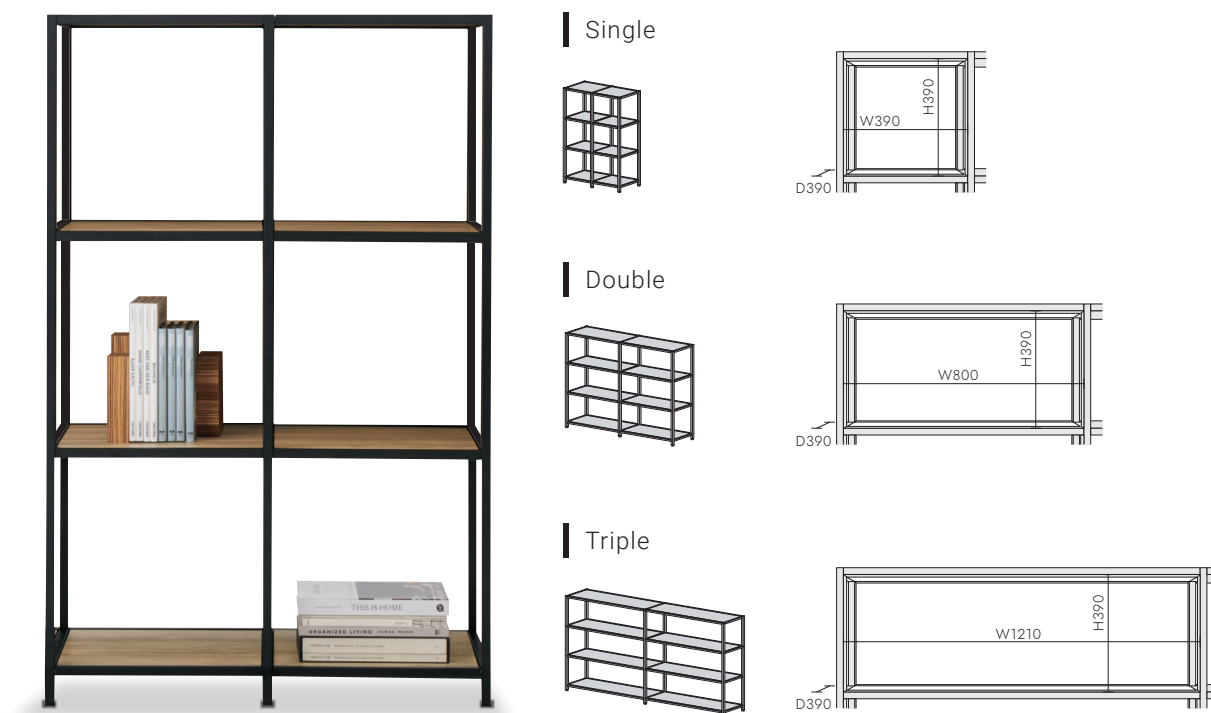

2020
GOOD DESIGN
AWARD

FEATURES

The simple structure of the slim frame and shelves harmonizes with various spaces.

The slim frames and shelves are designed to seamlessly blend into any interior. With a various shelf colors and the flexibility to combine multiple units, the layout can be easily customized.

ACCESSORIES

Inset panel

Inset panel to give expression to the shelf, and can also be set on the sides and back to create a box storage. A new perforated punched hole type is now also available.

Planter shelf

Shelves with planter boxes for placing artificial plants. Creates a comfortable space with greenery decorations.

Gate

Optional parts to connect shelves to each other to create a passage way to walk through. Depending on the configuration, the gate can be used to divide and enclose spaces.

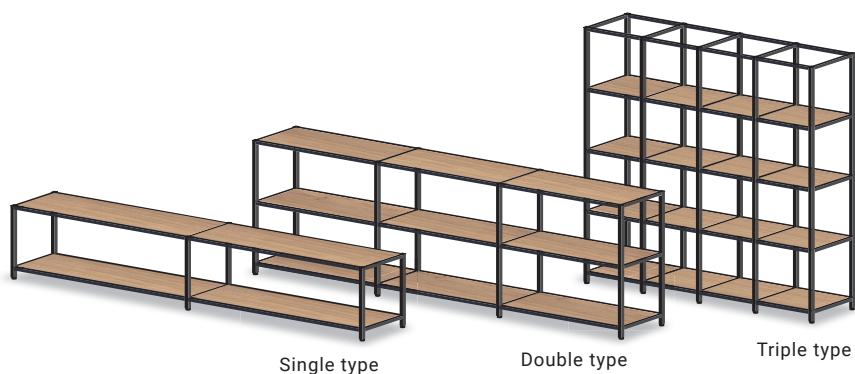

Hanging whiteboard

Ideal for supporting planning ideas. Compact whiteboards can be used by attaching them to the frame.

A. PRESET

The preset shelf variations are designed for straight layouts. Various sizes (width, height, depth) are available.

3-columns W3715 X D432					

B. FREE COMBINATION

Various layouts can be created according to preferences. Completed by combining the shelf units and connecting components.

COMPORNENTS

Shelf unit

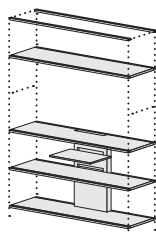

Function unit

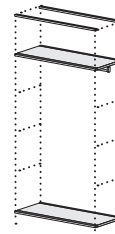

Monitor display unit

Unit to attach large monitor screens, as well as videoconferencing system equipment and speakers. Designed with cable management to neatly house wiring.

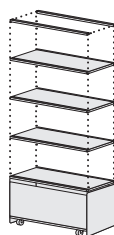

Wardrobe unit

Unit to hang jackets and coats. The hanging bar can be adjusted to two positions: in the middle or near front.

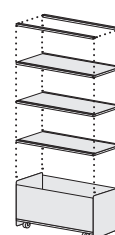

Drawer unit

Designed to blend in with the shelf, it can be pulled out from either side. It is also suitable for stocking supplies and storing emergency items.

White board storage unit

This unit allows hanging whiteboards to be stored together when not in use. It provides easy access for quick retrieval, supporting seamless mode switching.
