Normann Copenhagen HYG

Designer: SIMON LEGALD

The concept of hygge is all about feeling good – security, warmth and comfort all form part of its DNA, and it is precisely these qualities that provide the template for the Hyg collection. The feeling of hygge is not only linked to the visual experience of the design; it lies in the overall sensuous experience. A lot of effort has gone into sculpting the shape to provide rest and support for the human body, to make it comfortable to sit in, basically.
